CASTOR VALI

GLOBAL RISK MANAGEMENT

Castor Vali is a global risk management company with significant expertise in Africa. Since 2011, we have helped our clients navigate complex operational risks by safeguarding their people, assets and reputations to ensure business continuity, safety, and success.

About Us

Welcome to Castor Vali Group, a Global Security and Risk Management company. With headquarters in the UK and offices in Europe, Africa, and the Middle East, we provide specialized risk management solutions worldwide. Our operations centers operate 24/7 from the UK, Nigeria, Kenya, and Ukraine.

Castor Vali was founded by former British Royal Marine Commandos in 2011 and began as a maritime security company operating off the Horn of Africa in the Indian Ocean. Growing opportunities in the oil and gas sector resulted in an expansion of Castor Vali maritime operations to West Africa in 2012. By 2015, we had become the leading security provider in the offshore energy sector, with the most extensive track record within the industry for offshore security support globally, a title we still hold today.

Since then, our expertise has grown to include Corporate Services in the land domain, supporting multinationals with travel security, training, embedded consultants, and capacity building. In addition, over the last decade, we developed an in-house risk advisory team within our Security Information Services (SIS) department to support our clients with security and political risk intelligence. Blending our operational and intelligence teams, in 2014, we launched our TrackAssist web-based platform and mobile app.

As a result of this growth, today, we support clients across a range of industries and sectors, including

energy, FMCG (Fast-Moving Consumer Goods), financial services, insurance, governmental bodies, media, non-profits, humanitarian, engineering, maritime, and mining. We boast a diverse track record with glowing testimonials, highlighting our extensive project experience and compliance adherence.

Castor Vali's senior management team retains its military ethos balanced with significant commercial expertise from a wide variety of backgrounds in intelligence, journalism, academia, data analysis, and strategic consultancies. Reflecting our truly global make-up, as a company, we speak 31 languages and represent diverse cultures and backgrounds.

Our Name - What does Castor Vali mean?

Chosen with intention by our founders, our name symbolizes the essence of our business. "Castor," the luminary star in the Gemini constellation, known in Greek mythology as the protector of mortals and the divine patron of travelers, conveys guidance and security. "Vali," a resilient figure from Norse legends, embodies our enduring strength. Together, they reflect our core ethos: to guide, protect, and fortify our clients in the most challenging environments.

Our Strategy and Culture

Purpose

We exist to help build safer environments across the world.

Vision

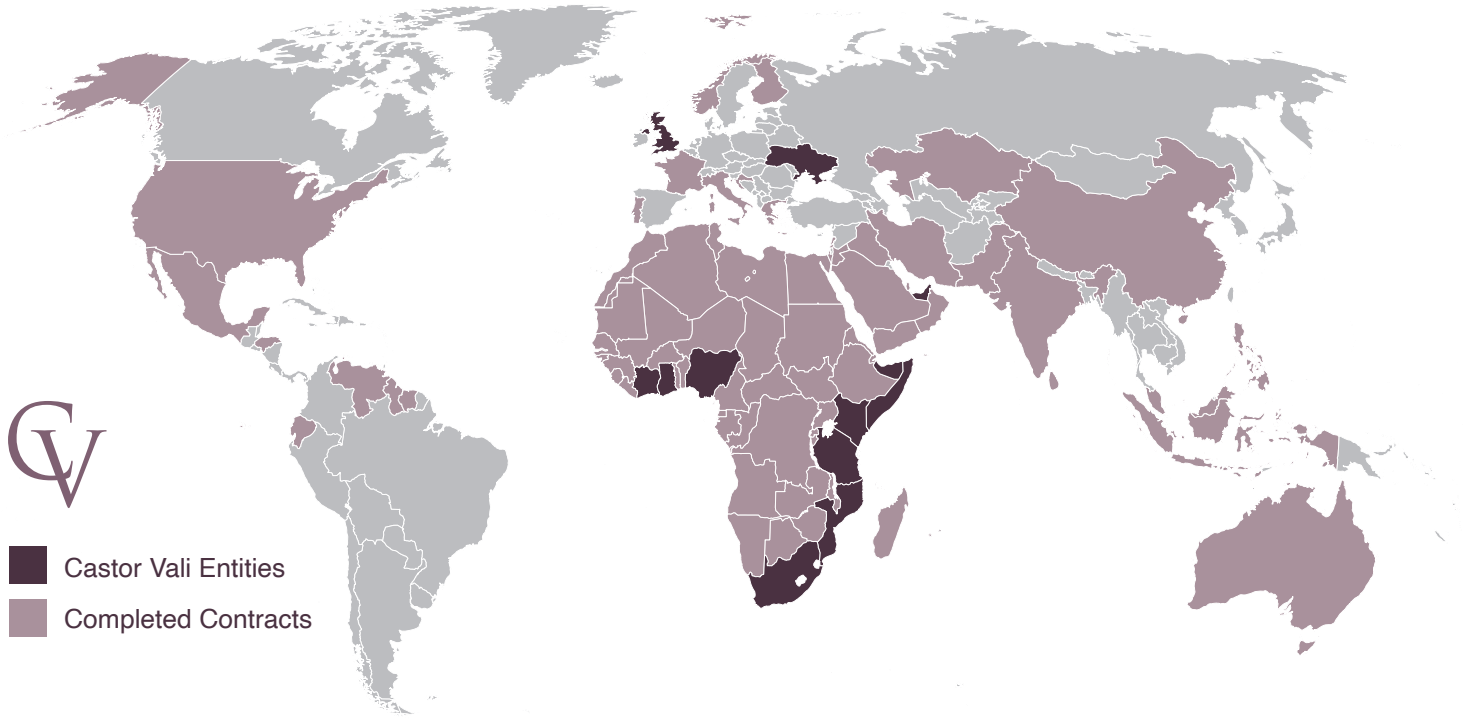

Our vision is to be a leading global security and risk management partner with unmatched expertise in Africa enabling safer environments.

Mission

To provide comprehensive intelligence-led security and risk management solutions tailored to our client's needs, leveraging our deep expertise, especially in Africa to deliver exceptional services that protect our clients and the communities in which we operate.

TrackAssist Platform

Empowering Safe Journeys Worldwide

Castor Vali's TrackAssist platform allows your employees to embark on travel with confidence, knowing they have access to accurate, reliable, and timely intelligence. Assistance is available at the touch of a button through our 24/7 Operation Centers, staffed with experienced and highly trained personnel. This web and app-based platform offers unparalleled 24/7 support and comprehensive duty-of-care solutions from the planning phase to safe arrival at home.

Key Features and Benefits:

- **Automated Pre-Travel Advice:** Empower your employees with tailored country briefings and security alerts before departure, enabling confident and well-prepared travel.
- **Real-Time Travel Alerts:** Receive real-time travel alerts tailored to current and upcoming destinations, keeping travelers informed and prepared.
- **Comprehensive Country Information and Risk Assessments:** Access detailed information and risk assessments covering over 230 countries and regions to support informed decision-making.
- **Traveler Check-In Feature:** Enable travelers to check in and confirm their status upon receiving an automatic notification. If the traveler does not respond to follow-up attempts, the 24/7 operations center will initiate emergency assistance.
- **Instant Incident Notifications:** Get immediate alerts of incidents near the traveler's location to ensure rapid response and situational awareness.
- **24/7 Emergency Assistance:** Benefit from Castor Vali's around-the-clock expert support, ensuring your employees have immediate access to help anytime.

TrackAssist is just one part of our travel risk suite of services, which includes planning and advisory, risk intelligence, training, 24/7 assistance, in-country journey management, and close protection services.

Security Information Services

Empowering Decision-Makers with Precision Intelligence

At Castor Vali, our Security Information Service (SIS) comprises a dynamic team of seasoned risk analysts from diverse backgrounds strategically stationed across our geographies. A network of global consultants further fortifies our team to bolster our intelligence gathering. Together, these experts vigilantly monitor and predict threats on a global scale, providing our clients with comprehensive reporting and analysis to support them in any environment.

Subscription Reporting

- Africa Risk Subscriptions for all jurisdictions:
 - Daily Briefs
 - Alerts
 - Weekly Reports
 - Monthly Reports
 - Deep Dives
- Maritime Risk Monitoring globally, comprising:
 - Flash Alerts
 - Weekly Reports

Bespoke Assessments

- Security Risk Assessments
- Onshore and Offshore Route Risk Assessments
- Pre-Market Entry Assessments

Trainings

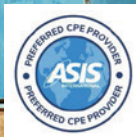

Host Nation Capacity Building

Castor Vali understands the need for local capacity building at the tactical and operational levels. Throughout key geographies within our portfolio, Castor Vali works alongside international donors to provide capacity building initiatives to local beneficiaries. We are a leading security solutions supplier with vast experience and in-depth knowledge of the risks when operating in remote and hostile environments. Our security and advisory experts are highly experienced and qualified to provide dedicated, client-focused capacity building services carefully tailored to your project priorities.

Corporate Security/HEAT Trainings

Castor Vali provides a wide variety of training packages to our clients and its personnel, to ensure that employees have the knowledge and skills to operate safely, in often challenging and frontier environments. Courses vary between every organization and Castor Vali provides tailor-made content for each client based on their business needs and area of operation.

- Hostile Environment Awareness Training (HEAT)
- Driver Training
- Medical Courses
- Digital online Training - Full library of courses (Accredited)

Operations Centers and Support

24/7 Operation Centers: Reliable Support for Critical Operations

Our operation centers in Europe and Africa are strategically located in the UK, Ukraine, Nigeria, and Kenya. These centers are integral to our commitment to supporting our clients, offering continuous monitoring of tasks, clients, and logistics. Staffed by dedicated local experts, they provide real-time intelligence, personnel and asset monitoring, and crisis response services. Using advanced technology and comprehensive data analysis, we deliver situational awareness and decision-making support. Our centers are instrumental in ensuring the safety of personnel, securing vessel deployments, and maintaining the integrity of critical operations. Key functions include:

- Fleet Monitoring
- 24/7 Emergency Hotline Support
- Project Oversight and Coordination
 - Daily Security Reports, Intelligence Dissemination, Tracking and Monitoring
- Travel Risk Management Function
- Access Control Coordination
- Incident Response and Crisis Management

Castor Vall's operations centers provide clients with a comprehensive range of high-quality services, designed to meet diverse operational and security needs:

- Ship Security Alert System (SSAS) Monitoring
- Control Room Audits, Assessment, Design and Implementation
- Control Room Integration
- Control Room Training and Mentoring
- Remote CCTV/Site Monitoring

Offshore and Maritime Security

Protecting your Offshore Assets, People and Reputation

Castor Vali is a leading security supplier in offshore energy and maritime sectors, with extensive experience supporting global projects with a particular focus on challenging environments.

In today's dynamic offshore and maritime security landscape, Castor Vali is a market leader, consistently delivering successful and innovative security solutions. Since its inception, Castor Vali has been at the forefront, leveraging a global footprint, strategic partnerships, and competitive pricing to provide professional support, addressing the evolving security challenges across Africa, the Middle East, Asia, and the Gulf of Mexico.
